## Citywide Underground Seismic Survey

In our August 4th newsletter, we told you about the upcoming underground mapping survey. Crews are now placing data recording "nodes" in residential parkways. Small holes about 8 inches in diameter by 11 inches deep are dug and receive a PVC sleeve and green "whiskers" to mark the spot. Nodes, that are completely passive and emit no energy, are then buried to record and store the data. Next month, survey trucks will stop at each site for 3 to 5 minutes to transmit the acoustical energy into the ground that is recorded by the node. Questions can be directed to Public Works at 562-570-5133 or LA Seismic at 562-208-2922. You can also read more about the process at this [link](#).

## And Finally

### The Heart of the Fourth Council District

With all the vintage photos we post, it's nice to share a more recent photo of the heart of the 4th district. Here is an aerial view of the traffic circle taken last winter. The green grass in the traffic circle (since 1932) provides a nice contrast to Community Hospital's red tile roof (since 1924) in the foreground.

## 100 Days of Summer

Long Beach Parks, Recreation and Marine encourages everyone to "stay and play" in Long Beach during the "100 Days of Summer" from Memorial Day to Labor Day. There is no reason to travel far or spend a lot of money to have fun with your family and friends.

Free concerts and movies, free family recreation programs, and activities at El Dorado Nature Center, Homeland Cultural Center, Rancho Los Alamitos and Rancho Los Cerritos are scheduled all summer long. There is also spontaneous fun available like biking, hiking, golf, tennis, kayaking, swimming and free drop-in youth and teen programs at local parks.

The City of Long Beach and the Long Beach Convention and Visitors Bureau will post hundreds of activities on [www.100DaysofSummer.org](http://www.100DaysofSummer.org) to make planning each of your 100 days easy and fun.

## El Dorado Nature Center

Looking for a bit of nature in the middle of the city? Nestled between the San Gabriel River and the 605 Freeway, El Dorado Nature Center is an oasis of natural habitat, offering visitors the chance to escape the hustle and bustle of the urban environment.

The 105 acres that make up the Nature Center grounds provide sanctuary for animals and plant life. Two miles of dirt trails and a ¼ mile paved trail wind around two lakes, a stream and forested areas. At the entrance, cross over the wooden bridge that spans the lake and you'll find yourself on a small island that houses the Visitor Center, containing educational displays, art gallery and a small gift shop offering environmentally themed books and gifts.
